

GT Mission Statement

“A Friendly Association for English Speakers in France”

The Get Together Association was founded in 1989 as a structure to welcome, promote networking and arrange meetings & events, principally for those who are able to speak English, within France.

The current aims & objectives of the Association are, as at 2009:

- 1.** Providing an environment, to enable members to make new friends, network and gather information useful to them and their life in France.
- 2.** To organise, patronise, or contribute to activities, social events, public & private, that are in-line with the overall wishes of the majority of the membership. To circulate this information, either via the GT Website or the monthly GT newsletter.
- 3.** To assist, where possible, members to integrate and participate in the social life of France.
- 4.** To consult continually with members, making best endeavours to ensure the overall direction of the Association is in accordance with members' wishes and needs.
- 5.** To develop and grow the membership of the Association, over time & in-line with the majority of members' wishes.
- 6.** To ensure the smooth running of the Association, via the committee and in accordance with the overall wishes of the membership.
